THURSDAY, JULY 13, 1911

"WHAT IS SOCIALISM?" (Continued)

Mr. Kauffman opens his book with this title by saying that his attention was called to the need of clearer ideas regarding socialism by overhearing the conversation of two professors on street car. They were discussing a certain person. One of the professors, in disposing of this person as unworthy of consideration, remarked, "Why the man's a socialist." And, being asked by the other man to define socialism, he declared socialism is masked anarchy, but it has no more chance of succeeding than if it dropped the mask.

The author then commenced to investigate the question and this book is the result of his investigation. Our readers will be more or less familiar with him as a magazine writer, rather than as a book writer.

He says, "Whether socialism is to succeed or to fail remains of course to be seen. Yet, succeeding or failing, it is no more anarchism than it is any of the half dozen other things that it is popularly believed to be Even if it were all of these and more besides, it is recognized by every keen-visioned student of politics and economics as the next great problem that will confront the voters of America. From the view of the specialist practical or theoretical, favorable or opposed, there today remains no doubt but that socialism must soon be met in a desperate, even a life and death struggle at the polls. In these cicumstances, it is the obvious duty of every voter to understand what socialism is in order that he may intelligently support what is good or, with equal in telligence, cast his ballot against what

"Here is a party which in America alone has grown from 21,164 votes in 1892 to between 600,000 and 650,000 votes in 1908. And yet the great mass of our voters are quite as ignorant of what it is trying to do as was my street car professor 17 years ago." It is apparent why this question is important when we see the extent to which its adherents have been willing to stand up and be counted at the polls. Should this same body of believers cast their vote in a non-partisan way, they might easily exercise or power in a nation election. At least in the campaign of '96, there was scarcely a million difference in the vote cast for the two leading presidential candidates.

Mr. Kauffman says at the outset "Socialism believes that the greatest revolution that the world has yet seen was the introduction of machinery accomplished almost in silence and quite without a battle, but resulting in the craftsmen losing the nimble tools with which they used to work and having in consequence to work no longer for themselves but for the capitalists who could afford to buy the more complicated, more expensive and more commercially effective machine. And, what socialism, rightly or wrongly, effectively or futilely, proposes by the "social revolution" se called, is simply another such silent and peaceful turning over of the industrial system whereby the machine now owned by the few for the profit of the few shall be acquired and operated by the majority for the benefit

"Socialism, as differentiated from anarchism, advocates a peaceful industrial revolution and the anarchist is the socialist's most violent opponent. In an anarchistic form of society, public power and governmental authority would to all intents and purposes disappear. Socialism on the other hand offers not a political but an industrial system. Its brief is against the centralization of the means of production and, consequently, of wealth. Nevertheless for the institution and maintenance of such a system, it's theory contemplates certain political changes or developments, tending not to dissipate but to strengthen public power, not to curtail but greatly to extend der trouble and could find no relief. the scope of government. Instead of weakening government, it has from Foley Kidney Pills which I had seen the first tended to strengthen. Socialism in its development has placed relief and after continuing their use more power in the public organs. It for a short time, I am entirely cured has widened the collective control; it of all my old complaints. Whatever has given the government enlarged I can say and do for Foley Kidney growers of Michigan to consider a sphere of action and limited the area of private initiative and control. Socialism holds to the importance of for me." Weinmann-Matthews Co.

absolute power of government in an enlarged sphere and leads to an exaggeration of public authority. Anarchism in an equal degree emphasizes the importance and absoluteness of

the individual. "Communism demands an equal quantitative distribution of the material wealth, regardless of problems of value. It would entirely do away with private property. Communism would make a state that would be nothing but a tremendous industrial corporation. To these theories social-at Special Price. Sullivan-Cook Co.

ism finds itself opposed. Its opposition to capitalism will be made clear in a succeeding chapter. Although the nature of that opposition is not generally understood, its existence is nohere doubted, and we are now concerned only with the differentiation between socialism and the three things with which socialism is most frequenty confused.

"Communism then demands that men shall share and share alike; sorialism, that each man shall receive in accordance with what he gives. In the socialist's view, under society as concerning the filthy habits of it first organized, A owns the tools has the necessity to use the tools his article for a price which will remburse A for the wages paid B and puts to his own purse.'

ASSISTANT HORTICULTUR-IST OF MICHIGAN AGRI-CULTURAL COLLEGE.

ICHIGAN fruit growers are crop is removed. about to harvest a bountiful present seem to be in prime condi- breeding ground, tion, especially that which has been well sprayed and cultivated. Many fences and cultivate to the gutters growers will fail to receive the full of the highway. Grading is something which cannot be overdone. The more rigidly it is performed the better it pays. With In the shadow of the smoking ruins the prospects of a heavy crop, which of the north, how thankful ought we means a well-supplied market, much uch cruel comparison as this from packed fruit will be shipped at a loss. Good grading requires good judgment experience. All unmarketable specimens should first be discarded. Unfortunately, most of our grading stops here. A well-graded package of fruit, however, consists not only of marketable specimens, but of specimens of uniform size, uniform color, gree of freedom from injury. Uniormity then as to all of these char-

> large fruit mixed with smaller specilight, neat, uniform and attractive advantage should always be selected. There is a great deal of truth in the old saying that, "The package sells grain alone. the fruit." It would pay most of the smaller and more attractive package for their peaches and other larger fruits than the bushel basket, and as a rule the finer grades of fruits pay

better in the smaller packages. These three important considera tions of more rigid and careful grading, more attractive packages and the careful arrangement of the fruit in the packages deserve the attention of all our Michigan fruit growers.

SOCIETY TO FETE TROOPS

Entertainment Planned for Officers at Chicago Tournament.

One day of the National Military Tournament, to be held in Grant Park, Chicago, July 23 to 30, will be Grand Army of the Republic day, when the Cook county veterans of the war will be the guests of the tournament. The will be the parade and drill of a full company of veterans. Other special days will be Association of Commerce lay and Govenor's day. On the later day Governor Deneen will review he assembled guardsmen.

The Mess Call Answered.

Spiders are said to "work over"

A Healthful Old Age for Women

The turn of life is the most critical period in a woman's existence. Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very distressing

Those dreadful hot flashes and the faint feeling that follows, sometimes with chills, extreme nervousness and despondency are symptoms of this condition.

Those hot flashes are just so many calls from nature for help. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life.

If this period is safely passed through the prospect will be good for a long period of sound health and comparative immunity from disease.

Here is Proof that Lydia E. Pinkham's Vegetable Compound may be relied upon at this period:

Alton Station, Ky.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from female troubles in consequence of my age, and thought I could not live. I wrote you and after taking Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I thank you so much for the good it has done me." - Mrs. Emma Bailey, R., R. No. 1, Alton Station, Ky.

Kewaskum, Wis.—"Your medicine was a blessing to me in my sickness at Change of Life. I cannot describe what I suffered for five long years from headache, backache, dizziness, no sleep, palpitation of heart and irregularities which are common at that period and sometimes continue for weeks at a time.

"I have been cured by Lydia E. Pinkham's Vegetable Compound in dry form. I am 54 years old and can do all my work." - Mrs. Carl Dahlke, Kewaskum, Wis.

If you want special advice write to Mrs. Pinkham, Lynn, Mass.

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success: "Here lies a man who surrounded himself with men abler than himself.

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something you want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there-money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove. A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection oven with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is

Sunday Not Sabbath. "Strange how people get tangled on the use of words," said a Jewish woman recently. "You hear many Christians, especially those of New England families and even those old English descent, say 'Sabbath' when they mean 'Sunday.' Now, the word 'Sabit is used commonly when no reference to a day of rest is intended. It s and was applied to the day appointed for rest and religious observance among the Jews, because that day is the seventh day of the week. Christians who use it to mean their day of rest do so with what seems a ridiculous lack of congruity for Sunday is the first day of the week as everyone knows and Sabbath cannot be correctly used except as applying to the seventh."

For Students of Heredity.

The late Sir Francis Galton believed that composite photography offered a valuable aid to the study of sociology and heredity. He made some singular experiments with this art, and a few weeks before his death he told Lady Victoria Welby some "really sensational results" that he had obtained. For example, he said he had collected photographs of Queen Victoria, Prince Albert and all their children, and upon making a composite of them he was greatly surpside to find that it gave the likeness of Princess Alice and of no one else. This, says Lady Welby, was only one of many equally suggestive results from his experiments.

"Killing" Fresh Storage Eggs. It is possible that the peculiar taste of a cold storage egg, which is some thing not easy to mistake, may be removed if experiments now being made by an electrical company are successful. Says the Inventive Age: 'It is claimed that when fresh eggs are placed in cold storage the eggs are alive; that they are slowly frozen to death, and that in . " to of the preservation qualities of the ico, the eggs do not taste good when cooked. It is now believed that by electrocuting the eggs the natural fresh taste may be retained and not removed when the eggs are placed in cold storage. When eggs are 'killed' by placing a metal

big meet because of the great battle vorite over McFarland when they for honors which will take place between McAleenan and Behrens. The former won the metropolitan title last spring; the latter is the champion of Germany and defeated George Gaidzick of the Chicago Athletic associa tion at the Olympic games of 1908 in England. Speculation is rife as to the relative merits of the two when it bath' is the Jewish word for 'sev-l comes to performing from a regulation enth.' It has only that meaning, and high tower. They have competed against each other indoors with vary ing results, but never met in a contesfrom a high board. As Gaidzick, pres ent holder of the title, is not expected to defend it because of injuries suf fered last April, it looks as if the na tional championship rested between McAleenan, Behrens and Smyrk.

Experts anticipate seeing most of

upon before the end of the season with sufficient speed to lower every standing mark, and if favorable conditions are found there should be an entire new list of standards by October. The entry of George Hodgson of the the Queensberry game. Montreal Amateur Athletic association titular events, and there is every prospect of his making the Gotham men hustle. He swam close to record figures in the Canadian championships and will take a lot of beating. His presence with that of the German cracks, Rit er and Behrens; the Austrian, Tobias and the Australian, Smyrk, will give renown as an exponent of the manly an international flavor to the big car- art. He has had fleeting battles with ***

HUGHEY JENNINGS TIPS OFF SECRET OF GRASS PULL-ING.

Hughey Jennings, the picturesque manager of the Detroit Tigers, for the first time exposes the secret signals that he uses on the coaching lines when he is apparently pulling up sprigs of grass to amuse the public.

"You see," says Jennings, "it is simple when you understand it. When I pull up three blades of grass that means I want the batter to hit a three bagger, two mean a two bagger is desired, and one is for a single. When I take a big reach and grab a whole handful that means that I am looking for a home run."

This explanation ought to be a great relief to the fans.

Lightweight Champion to Meet McFarland In Frisco Sept. 7.

WEIGHT LOW FOR CHICAGO BOY

Making 133 Pounds For Bout Will Lessen His Chances of Winning. "Michigan Wildcat" Ought to Be Favorite Over McFarland.

By TOMMY CLARK.

McFarland and Wolgast-that's the battle they've been waiting for and will probably see on Labor day in San Francisco if nothing occurs to change the plans of the California promoters. This match embodies so many elements of doubt that many of the wisany predictions in the matter. At the which always arises from the matching of a sturdy little fighting machine

against a polished boxer. Some time ago when there was talk of McFarland meeting Wolgast the battle was ridiculed by the wise ones. In fact, when Wolgast's name was associated with that of the Chicago boy river on Aug. 19 under the auspices of it always received a good laugh, but since the "Michigan Wildcat" got into called near champions as if they were plexion.

Wolgast is no longer a "cheese champion," as Battling Nelson dubbed him. Neither is he a counterfeit. He is not overrated and has demonstrated that he is one of the best legitimate lightweights that the ring has ever developed. This fact was apparent

Though he beat Nelson and every far have found no one anxious to take one else he has met, there have always been some doubting Thomases The retirement of Charles M. Daniels so far as the Michigan lad's real abilifrom competition will add to rather ty was concerned. The fact that he than detract from the interest, for it made several poor showings against will insure better racing. Particularly "Knockout" Brown after recovering in the east, with such a galaxy of from an injured arm seemed to create evenly matched stars as Frizell, Ne- the impression with some followers of rich, Reilly, O'Sullivan, South, Schaal, the sport that Wolgast's victory over ter and Trubenbach in the sprints and and that there were several boys in Goodwin, Cross, Oppenheim, Auerbach, his class who could beat him. But by Manley, Reilly, Frizell, Nerich, Tobias, his victory recently Wolgast absolute-Stoddart and Hallstein in the middle ly established himself as being at the and long distances, there should be head of his class. There may be several lightweights who in a short bout The fancy diving contests should also could outpoint him, but as a fighter he tacular exhibitions. Men have im- in his palmiest days. able form, as are R. Behrens, Walter There is no question now, in view of Lee, Harold Smyrk, Frank Mullen and Wolgast's great victories and especially his quick win over Moran, that he Particular interest will attach to the will be an even money bet if not fa-

> Packy is naturally a big boy, and the weight of 133 pounds which he will be compelled to make will strengthen Wolgast's chances materially. McFarland is the cleverest man of his weight in the world. But will his exceptional cleverness avail him when he goes against the irresistible power of the rugged champion from

Cadillac? Wolgast is as strong as a young bull, and when he gets in close and starts working away it is almost impossible for a man to protect himself. McFarland will not stand much more of a chance to beat him than did Moran, because, like Moran, he lacks the stamina necessary to stand off Wolgast for any length of time.

Wolgast, like Nelson in his palmy Daniels' open water records improved days, seems to be able to overcome all obstacles. When he starts his rush-Frizell and Reilly are both credited ing tactics his opponents have no time to exercise their scientific training. The very force of this fighting en-

gine brushes aside the very things that precedent has made most desirable in All bonnets off to Wolgast, who has of Canada is promised for some of the proved himself, after getting off with a bad start, to be the greatest little

fighter of the present day. Bresnahan Still Fighting. Roger Bresnahan's arbitraments of fists on the ball field have been brief, and they have not enhanced Roger's Arthur Devlin, Bob Bescher and Bill Klem.
